

ABSTRACT

The present invention relates to methods of treating surfaces, to protect or clean said surfaces. The invention more particularly relates to the treatment of interior walls or surfaces, particularly indoor household walls or surfaces, to protect the same from soiling or stains. This invention also relates to compositions, kits and devices for use in the above methods, to protect or clean indoor surfaces. This invention can be applied to various indoor surfaces, such as soft and permeable surfaces, in particular painted walls, wall paper and wallcloth.

1. A method of treating a surface to protect or clean said surface, comprising the steps of:
(a) providing a composition;
(b) applying the composition to the surface;
(c) allowing the composition to dry;
(d) cleaning the surface with a device;
(e) repeating steps (b) through (d) until the surface is protected or cleaned.
2. The method of claim 1, wherein the surface is an interior wall or surface.
3. The method of claim 1, wherein the surface is a household wall or surface.
4. The method of claim 1, wherein the surface is a soft and permeable surface.
5. The method of claim 1, wherein the surface is a painted wall, wall paper or wallcloth.
6. The method of claim 1, wherein the composition is a protective composition.
7. The method of claim 1, wherein the composition is a cleaning composition.
8. The method of claim 1, wherein the device is a brush, roller or sponge.
9. The method of claim 1, wherein the device is a spray nozzle.
10. The method of claim 1, wherein the device is a cloth or towel.
11. The method of claim 1, wherein the device is a vacuum cleaner.
12. The method of claim 1, wherein the device is a steam cleaner.
13. The method of claim 1, wherein the device is a pressure washer.
14. The method of claim 1, wherein the device is a scrubber.
15. The method of claim 1, wherein the device is a sander.
16. The method of claim 1, wherein the device is a polisher.
17. The method of claim 1, wherein the device is a sealer.
18. The method of claim 1, wherein the device is a finisher.
19. The method of claim 1, wherein the device is a restorer.
20. The method of claim 1, wherein the device is a repairer.
